

# ACCESS FOR THE **MODERN WORLD**

---

Digital Solutions for  
Physical Access Control

Find the  
perfect access  
solution with  
sesamsec.

# YOUR PARTNER FOR PHYSICAL ACCESS CONTROL

From single-door solutions to complex, cross-building access systems, sesamsec is transforming access control.

Modern physical access control solutions must be absolutely secure and reliable. But they also must be easy to use and manage – for occupants, building managers, and system integrators. And they need to be scalable, adaptable and ready for the future.

sesamsec makes it all possible. We are an internationally experienced specialist for access control solutions. Whether you need a single component or a complete package of hardware, software and professional services, we deliver secure and user-friendly solutions that fit seamlessly into existing system landscapes and can be expanded as required. We work with system installers and integrators or directly with building owners to design and deliver state-of-the-art physical access systems tailored to client needs.

**DISCOVER NEW POSSIBILITIES – TOGETHER.**

SESAMSEC  
MAKES  
IT ALL  
POSSIBLE.

**We are innovating for the future to enable digital transformation in access management.**

We pioneered Physical Access Control-as-a-Service (PACaaS), with cloud-based service models that are adapted to a world in which requirements for perfect access control are changing dynamically. It's all backed by decades of experience and a dedication to customer service and satisfaction.

# HERE'S WHAT SETS US APART.

Access your way: the perfect combination of hardware, software and service.

## FLEXIBLE

Get exactly what you need – from individual components to complete systems, and from off-the-shelf products to customized, specially manufactured solutions.

## EASY TO INTEGRATE

Our solutions can be easily integrated into higher-level systems such as your building control system, intrusion detection, time recording and more.

## EXPANDABLE

Today is not tomorrow. When your needs change, you benefit from the modular design of our solutions.

## SCALABLE

We secure facilities of any size and complexity, from single-door solutions to IP-networked, multi-building access control systems.

## VERSATILE

We offer a broad portfolio of products and technologies, always combined with excellent service.

## VDS-COMPLIANT

The majority of sesamsec readers meet the highest security standards for access control and intrusion detection technology.

## MADE IN GERMANY

Know where it comes from: we develop and manufacture in Germany and offer you outstanding quality in a timeless design.

# ACCESS FOR EVERY INDUSTRY.

Security for assets, employees, people & business data.

## BUSINESS

From a single building to a complex, multi-site system.

## INDUSTRY

For modern production plants and multi-layered warehouse complexes.

## EDUCATION

Universities, colleges, and campus facilities of all kinds.

## HOSPITALITY

Solutions for guests & visitors of large events, trade fairs, hotels, meeting venues and more.

## PUBLIC SERVICE

Maximum security for sensitive facilities, including government, armed forces and police.

## TRANSPORTATION

Access control in the field of mobility – at the airport, on trains or on ships.

## HEALTHCARE

Differentiated access solutions for hospitals, clinics and care facilities.

## RESEARCH FACILITIES

Sensitive solutions for institutes, laboratories and R&D centers.

With a customized solution from sesamsec, you are ideally positioned for today's developments and also for those of the future. Our broad spectrum—from single-door solutions to IP-networked access control systems – offers very good scalability. This means that if you want to develop further and one day need a little more, you are already well prepared. The modular design of our system components also offers flexibility in the scope of our products. Your employees, customers and guests will be thrilled by the ease-of-use sesamsec offers. With modern technologies, you save on complicated PIN numbers or bulky keys and offer a convenient access experience from the very first second.

And you? You can rest easy when it comes to security in the future. Your new access control solution ensures that your buildings or rooms are guaranteed not to welcome any uninvited visitors. Your sensitive employee and company data are also effectively protected against espionage and misuse.

## ALL-IN-ONE SOLUTIONS

Another advantage lies in the possible all-in-one solutions. Access control can be combined with all the applications required in your company—from time and attendance to building management systems and intrusion detection systems—to create a complete solution on the company ID card.

# ONLY FROM SESAMSEC

Access your way. Backed by industry-leading expertise.

We make access control easy with our powerful combination of top-quality hardware and control systems, smart software, and expert consultation and service. With sesamsec, you are in control. We will help you design and tailor an access system that will meet your needs exactly, today and in the future. Secure. Simple to manage. And easy to adapt and scale.

## ACCESS THE FUTURE WITH SESAMSEC.

Access solutions from sesamsec are in use all over the world. Hotel guests use them to open the doors to their dream suite. Employees start a productive day with our systems. For students, we open up a world of knowledge. Every user associates a different experience with our solutions. For you as an operator, on the other hand, one issue is paramount: 100% security and control, at all times. For this purpose, sesamsec offers a unique solution package consisting of product, software and service, which is tailored to the respective area of application.

Nevertheless, you remain flexible. If requirements change, our systems simply change with them.

**BY THE WAY:** with sesamsec, you save yourself the tedious search for different partners. We offer all components from a single source: readers, controllers and identification media. Of course, only if you want it that way. You don't need to worry about interfaces, either. Our solutions fit seamlessly into the higher-level system landscape and contribute to smooth overall operation.

### PRODUCT STYLE, FUNCTION AND QUALITY.

#### READERS

Enter with style! Our universal readers work with any transponder technology and come in a range of designs, with or without keypads. Choose from our elegant Secustos readers or many other options for a perfect fit into your environment.

#### CONTROLS

Control all aspects of building security with one central system for access control, alarm systems and more. Multi-location capabilities, high-security VdS infrastructure, and highly customizable.

#### IDENTIFICATION MEDIA

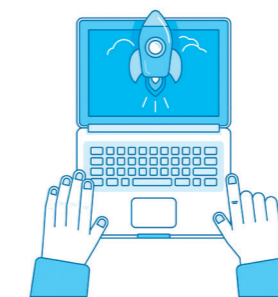

Express your identity with customized identification media. Cards or key fobs in a range of designs, all with high quality and exceptional reading performance.

### SOFTWARE THE BRAINS BEHIND THE BEAUTY.

#### APPBLASTER TOOL FOR READERS

Get full control with our Appblaster configuration module. Read and write cards, set formats and output protocols, and more. Choose from three options: standard firmware configuration, configurable firmware, or custom applications.

#### CUSTOMIZATION AND CHANGES

Software updates, function upgrades or individual changes: with sesamsec, you remain completely flexible. You also decide how you want to make the changes. On your own or with us. On-site, on the phone or remotely.

### SERVICE OUR EXPERTS AT YOUR SIDE.

#### PAC AS A SERVICE (PACAAS)

Get up and running quickly and stay flexible for the future with our cloud-based PACaaS model. Choose your package components, and let us take care of deployment, hosting and software maintenance – all for one predictable monthly cost.

#### PROFESSIONAL SERVICES

For installers and partners: exceed your customers' expectations! We're here to help with planning and project management, customization, commissioning, monitoring, ongoing service, and expert support and training.

#### STANDARD SERVICES

Get first-class advice right from the start from the access experts at sesamsec. From product selection, to technical support, to knowledge transfer for your organization. We are here for 24 / 7 and around the globe.
